

Advanced Cardiovascular Risk Scoring

Framingham Risk Score 12%

Discover your individual risk for heart disease and stroke with the Cardio Zoomer's advanced cardiovascular risk scoring, including the Framingham and Reynolds Risk Score

PLAC (nmol/min/mL)

Low hs-CRP ↓

Who Will Benefit From The Cardio Zoomer?

The **Cardio Zoomer** is an advanced blood test designed for individuals who want a deeper understanding of their heart health—especially those with a personal or family history of heart disease, high cholesterol, high blood pressure, diabetes, or chronic inflammation.

It's also ideal for anyone looking to prevent cardiovascular issues before symptoms appear.

About Vibrant Wellness

Vibrant Wellness is a leading CAP-accredited biotech company based in Santa Clara, CA. We deliver life-transforming lab testing that enables health and wellness providers to discover the root of patient health issues.

We're at the forefront of modern medicine and research, providing personalized health analytics using cutting-edge, high-quality technology. We believe that anyone can achieve better health and vibrant longevity through individualized solutions based on testing—not guessing.

Regulatory Disclaimer

Please note the information provided by Vibrant Wellness is intended solely for informational purposes to help inform lifestyle choices aimed at potential risk mitigation. The information is not intended to be used by the patient for any diagnostic purpose and is not a substitute for medical advice by a healthcare practitioner. Please consult a licensed healthcare practitioner for any questions regarding diagnosis, prevention, or treatment of any disease or health assessment. The tests were developed and their performance characteristics determined by Vibrant America and Vibrant Genomics, laboratories certified under the Clinical Laboratory Improvement Amendments (CLIA) and accredited by the College of American Pathologists (CAP). The tests have not been cleared or approved by U.S. Food and Drug Administration (FDA). For information on tests available for use in New York State under New York State Department of Health (NYSDOH) requirements, please visit the Vibrant website.

Metabolic risk

Contributes to the development of cardiovascular diseases

Inflammation

Underlies the progression of atherosclerosis

Lipids

Damages the inner lining of blood vessels, causing plaque

Revised 01/02/2026

Symptoms of Cardiovascular Issues

Symptoms Include:

- Family History Of Heart Disease
- High Blood Pressure
- High Cholesterol Or Triglycerides
- Unexplained Fatigue
- History Of Blood Clots, Stroke, Or Heart Attack
- Diabetes Or Prediabetes
- Overweight Or Difficulty Losing Weight
- Chest Pain Or Palpitations
- Elevated Inflammation Markers
- Concerns About Genetic Heart Risk
- Sensitivity To Heart Medications
- Irregular Heartbeat Or Arrhythmia

Why Is This Test Important?

- Measures a full spectrum of biomarkers; lipids, ceramides, sterols, inflammation, oxidative stress, clotting factors, and metabolic markers.
- Screens for key genetic variants associated with cardiovascular disease
- Identifies silent contributors to heart disease.
- Connects your results to clinical domains; cholesterol, inflammation, metabolism, and genetic risk, making it easy to understand your personal heart health profile and next steps, with built-in recommendations for nutrition and lifestyle.

The Cardio Zoomer Tests For:

- High Cholesterol / Abnormal Lipid Levels
- Elevated Blood Pressure
- Unexplained Fatigue Or Low Energy
- Chronic Inflammation Or Swelling
- Family History Of Heart Disease

The Vibrant Wellness Advantage

- ✓ **Simple testing with robust results.** Perform the Cardio Zoomer test in the comfort of your home, or work with your provider to find a convenient testing center.
- ✓ **Unparalleled specificity and sensitivity.** Our proprietary technology detects:
 - Critical biomarkers like lipid profiles, ApoB, and Lp(a)
 - Early signs of vascular damage
 - Family history of any heart-related diseases
- ✓ **Validated and accredited.** Science-backed testing and analysis based on rigorous, ongoing research by clinical experts.
