

Who Will Benefit From The Toxin Zoomer?

The Toxin Zoomer gives you a clear view of how everyday toxic exposures and your detox pathways may be shaping your health.

It measures toxic load from metals, mold toxins, chemicals, and PFAS and pairs it with detox genetics, helping you and your provider understand how these pressures influence energy, mood, inflammation, weight, and long-term resilience, so your plan forward feels more focused and supportive.

About Vibrant Wellness

Vibrant Wellness is a leading CAP-accredited biotech company based in Santa Clara, CA. We deliver life-transforming lab testing that enables health and wellness providers to discover the root of patient health issues.

We're at the forefront of modern medicine and research, providing personalized health analytics using cutting-edge, high-quality technology. We believe that anyone can achieve better health and vibrant longevity through individualized solutions based on testing—not guessing.

Regulatory Disclaimer

Please note the information provided by Vibrant Wellness is intended solely for informational purposes to help inform lifestyle choices aimed at potential risk mitigation. The information is not intended to be used by the patient for any diagnostic purpose and is not a substitute for medical advice by a healthcare practitioner. Please consult a licensed healthcare practitioner for any questions regarding diagnosis, prevention, or treatment of any disease or health assessment. The tests were developed and their performance characteristics determined by Vibrant America and Vibrant Genomics, laboratories certified under the Clinical Laboratory Improvement Amendments (CLIA) and accredited by the College of American Pathologists (CAP). The tests have not been cleared or approved by U.S. Food and Drug Administration (FDA). For information on tests available for use in New York State under New York State Department of Health (NYSDOH) requirements, please visit the Vibrant website.

Advanced Lab Testing for *Personalized Longevity*

Toxin Zoomer

Urine

Phase I
SNP CYP1A2

Phase II
SNP COMT

Symptoms of Toxicity Issues

Symptoms Include:

- Fatigue Or Low Energy
- Brain Fog Or Trouble Focusing
- Chemical Or Fragrance Sensitivity
- Unexplained Skin Issues
- Weight That Won't Respond To Diet
- Chronic Inflammation Or Joint Discomfort
- Slow recovery After Illness Or Stress
- Hormonal Shifts Or Cycle Changes
- Digestive Upset Or Nausea
- Persistent Headaches Or Migraines
- History Of Mold Exposure

Environmental Chemicals

Cleaners

Plastics

Fragrances

Pesticides

Body Care Products

Burnt Food

Why Is This Test Important?

- Heavy metals like mercury, lead, arsenic, and cadmium can accumulate from water, food, or the environment and may influence energy, cognition, and inflammation.
- Mycotoxins from water-damaged buildings or foods can influence sinus health, energy, skin, and inflammation.
- Chemicals from plastics, fragrances, cleaners, and personal-care products can place additional load on metabolism, hormones, and immune balance.
- PFAS remain in the body for years and may affect hormones, immune function, metabolism, and day-to-day resilience.

The Toxin Zoomer Tests For:

- Heavy Metals
- Mycotoxins
- Environmental Chemicals
- PFAS ("Forever Chemicals")
- Detoxification & Toxin-Response Genetics
